

## **Fundraiser Product Information**

### **Coffee - Available in Ground or Bean / Regular or Decaf**

Our 100% Arabica beans are carefully selected and purchased direct from plantations around the world. Then consistently the beans are slow roasted, gently smoking them at the end of the roast to bring out the finest nuances of flavor. Our coffees are air cooled and hand packed immediately after roasting to guarantee freshness.

The result of the process has won our coffee the title of "The Finest Coffee in America", by the Fine Food & Beverage Federation.

Our coffees are certified Blue Ribbon Kosher, they are sustainably grown using fair trade principles and are shade tree and bird friendly. Our organic coffees are certified OCA, USDA and FDA.

The roastmaster behind our coffee is Timothy Tulloch. Timothy honed his coffee skills in the African coffee centers of Kenya and the Congo, the cradles of the coffee civilization. He has been buying, grading, roasting and cupping coffee for over 25 years. Like grapes, which create fine wine, coffee beans must be coaxed into their ultimate state of flavorful nectar.

Currently we are offering all of our coffees in ground or bean. We have a large offering of decaf. Our coffee selections bring you a taste from Central and South America, the Pacific and Africa.
